Description

Depuis vingt ans, Muriel Delepont photographie des musiciens authentiques (Iggy Pop, Tricky, Nick Cave, Pete Doherty, etc.) et en tire des portraits sensibles. Ensuite, enfermée à double tour dans son laboratoire, elle se joue du noir et blanc, puis, se servant d'un pinceau, elle donne à ses photos une nouvelle densité et crée ce voile qui donne à l'image sa facture intemporelle. Depuis vingt ans, Patrick Eudeline, rock critic respecté et romancier, est un personnage incontournable de l'univers underground. Depuis vingt ans, Philippe Manœuvre s'emploie, à travers ses livres, ses chroniques et ses interviews, à perpétuer l'esprit du rock. Organic Vision of Sound retrace le parcours photographique d'une artiste et témoigne de sa vision du monde. Organic Vision of Sound est un livre définitivement rock.
